Clinovia arranges £15 million new acquisition facilities

Clinovia has been provided with additional facilities of £15 million for acquisitions in 2006, including the Gaurdian and Betacare acquisitions, which have been completed. The facilities were provided by Barclays Leveraged Finance, which have supported Clinovia Home Healthcare since 2003.

Clinovia's growth has also enabled it to repay one third of the capital invested by Lyceum Capital 2000 investors since 2003.
